

PROVIDER ALERT

February Provider training on Strengthening Clinical Processes is postponed!

Dear Provider:

Recently we notified you about our next Provider training titled “Strengthening Clinical Processes” which was scheduled for **February 24, 27, and 28, 2017**.

We are postponing this series of training dates, in order to complete changes and testing to a new Provider portal component that will increase efficiencies when requesting authorizations for services.

We will send out another notification once we have confirmed new training dates and regional locations for in-person discussions.

Thank you,

The Optum Idaho Team
