

PROVIDER ALERT

Youth Empowerment Services (YES) Foundational Training

October 13, 2017

Dear Provider:

The State of Idaho is in the process of designing and implementing a new children's mental health system of care for children and youth with Serious Emotional Disturbance (SED) called YES - Youth Empowerment Services. The YES project has been authorized by the Idaho Department of Health and Welfare (IDHW) as part of the settlement agreement resulting from the Jeff D. class action lawsuit. The YES system of care will provide a new way for families to access mental health services for their children, will be strengths-based, family-centered, and will incorporate a new collaborative team approach that focuses on providing individualized care for children.

Optum Idaho will be hosting a webinar for YES Foundational Training on November 14th and 16th. The two part series will cover an introduction to the project, an overview of the system of care and information on the process to access services.
