

August 20, 2018

Dear Provider:

Please see the revised July 1, 2018 Fee Schedule. As you know, in June we published a new fee schedule with the following additions/updates:

- Codes for the new YES Services as announced in the May Provider Alert;
- An increase in reimbursement rates for Substance Use Disorder services;
- A change in policy to allow master's level clinicians to bill psychotherapy codes where the primary diagnosis is a substance use disorder to ensure equitable reimbursement for services and accuracy in reporting of the diagnosis;
- A new fee to allow billing for case consultation between professionals to enhance a member's care.

We are distributing this revised fee schedule with the following updated service code descriptions:

- H0031 HN – To allow billing for assessments other than CANS, the description has been updated as follows: "BH Assessment by certified para/professional";
- H0032 – To clarify the unit definition for this code, the description has been updated as follows: "Individualized BH Treatment Plan - billed by clinician and paraprofessional for teaming with patient present; 1 unit = 15 min;
- T2002 – To correct an error on this description and match the 2017 fee schedule, the description has been updated as follows: "Transportation and mileage reimbursement only available in conjunction with the following services: 90847, 90832, 90833, 90834, 90836, 90837 and 90838".

Fee schedules were distributed via email. Please call your Regional Network Manager or email optum_idaho_network@optum.com if you have any questions.

Thank you,

The Optum Idaho Team
